

Sabre® FC Foam Cleaner

Sabre FC Foam Cleaner is a cleaning spray for the removal of uncured construction foam from tools and surfaces.

Instruction for use

Use the spray nozzle on the container to remove foam from clothes and surfaces. In order to clean foam gun from inside, connect the container of the cleaning agent with the gun, by holding the gun handle with one hand and turning the upright container with the other hand. Make sure that the gun is not pointed to persons when turning it. Only after connection, turn the container together with the gun in the working position, i.e. upside down. Shake the container and clean the gun by pressing the trigger, until there is no foam in the outgoing cleaning agent. Handle with special care as the cleaner contains inflammable gas.

Not suitable for the removal of cured foam.

Fields of Applications

Used for the removal of uncured construction foam from clothes and tools as well as for the immediate inside and outside cleaning of foam gun after its use. Cleaning of window frames, windowsills, doors, jambs, etc. from uncured construction foam during work.

Application Conditions

Air temperature during use -10 °C to +30 °C.

Cleaning

Cover with inert absorbent (e.g. sand). Collect and place in a suitable container or let vaporize.

IMPORTANT NOTICE

Sabre Adhesives Limited makes no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining whether the product is fit for a particular purpose and suitable for user's method of application. Due to the fact that specific substrates, such as: plastics, polycarbonates, etc, may differ from manufacturer to manufacturer we recommend preliminary compatibility tests. Please remember that many factors can affect the use and performance in a particular application. The materials to be bonded with the product, the surface preparation of those materials, the product selected for use, the conditions in which the product is used, and the time and environmental conditions in which the product is expected to perform are among the many factors that can affect the use and performance of a product. Given the variety of factors that can affect the use of our products some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

LIMITATION OF REMEDIES AND LIABILITY

If the product is proved to be defective, the sole remedy shall be to refund the purchase price or to repair or replace the defective product. Sabre shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including negligence, warranty, or strict liability.
