

# Sabre® Surface Activator

Sabre Surface Activator is a cleaner, degreaser and primer for activating non-porous surfaces, such as plastics, coatings and metals. Improves adhesion of sealants based on silicone, polyurethane and MS Polymers.

## Features

- Liquid, easy application
- To be used as a cleaner / primer on non porous surfaces
- Suitable for silicone, polyurethane and MS Polymer® based sealants and adhesives

## Application Conditions

Preparation of plastics, powdercoatings and other non porous surfaces before bonding and sealing.

## Shelf Life

6 months in unopened packaging, in a cool and dry storage place at temperatures between +5°C and +25°C.

## Technical Characteristics

Base	Solvents and special activating agents
Consistency	Liquid
Specific Gravity	0.78g/ml
Flash Point	13°C

## Application

**Method:** Apply with a clean lint free cloth

**Recommendation:** Apply in one direction. Replace cloth regularly in order to avoid contamination of the surfaces.

By doing so the surface is cleaned, degreased and activated for the application of a sealant. Leave to evaporate for 5 minutes. Apply sealant / adhesive not later than 2 hours after application.

## Surfaces

**Type:** All non porous surfaces.

We recommend preliminary compatibility tests previous to application.

## Health & Safety

Apply the usual industrial hygiene.  
Wear gloves and goggles.

### IMPORTANT NOTICE

Sabre Adhesives Limited makes no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining whether the product is fit for a particular purpose and suitable for user's method of application. Due to the fact that specific substrates, such as: plastics, polycarbonates, etc, may differ from manufacturer to manufacturer we recommend preliminary compatibility tests. Please remember that many factors can affect the use and performance in a particular application. The materials to be bonded with the product, the surface preparation of those materials, the product selected for use, the conditions in which the product is used, and the time and environmental conditions in which the product is expected to perform are among the many factors that can affect the use and performance of a product. Given the variety of factors that can affect the use of our products some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

### LIMITATION OF REMEDIES AND LIABILITY

If the product is proved to be defective, the sole remedy shall be to refund the purchase price or to repair or replace the defective product. Sabre shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including negligence, warranty, or strict liability.
