

# SAFETY DATA SHEET

Section 1. Identification of the material and the supplier	
Product:	SabreBond SMP50
Product Use:	Adhesive/Sealant
Restrictions of use:	Refer to Section 15
New Zealand Supplier:	Sabre Adhesives Ltd
Address:	42 Cambridge Street
	Levin, 5510, New Zealand
Telephone:	+64 (0)6 366 0007
Emergency No:	0800 764 766 (National Poison Centre)
Australian Supplier:	Sabre Adhesives Ltd
Address:	Level 6, 10 Herb Elliot Avenue,
	Sydney, NSW, 2127
Telephone No:	+61 2 9098 8244
Emergency No:	13 11 26 (National Poison Line)
Date SDS Issued:	28 June 2022
Section 2. Hazards I	dentification

## Australia:

NOT classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia

## New Zealand:

NOT classified as hazardous according to Regulation (EC) No. 1272/2008 which meets New Zealand jurisdiction criteria as per EPA Hazardous Substances (Classification) Notice 2020.

Ingredients	Wt%	CAS NUMBER.
Non hazardous and chemicals not	To 100	Proprietary
triggered as hazardous		

## Section 4. First Aid Measures

Routes of Exposure:

If in Eyes Rinse opened eye for several minutes under running water. Get medical attention if irritation develops or persists.

- If on Skin Flush skin with plenty of water. Get medical attention if irritation develops or persists.
- If Swallowed Rinse mouth. Never give anything by mouth to a victim who is unconscious or is having convulsions. Obtain medical attention, as needed.

If Inhaled Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, give oxygen. If the affected person is not breathing, apply artificial respiration. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Do not use mouth-to-mouth method if victim inhaled the substance. Get medical attention, if needed.

#### Most important symptoms and effects, both acute and delayed

Symptoms:

None known.

Section 5. Fire Fighting Measures	Section 5.	Fire Fighting Measures	
-----------------------------------	------------	------------------------	--

Hazard Type	Non-flammable.
Hazards from products	No data available.
Suitable Extinguishing media	Use fire extinguishing methods suitable to surrounding conditions.
Precautions for firefighters and special protective clothing	No special measures required.
HAZCHEM CODE	None allocated

Section 6.	Accidental Release Measures

#### **Personal Precautions:**

Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

## **Environmental Precautions:**

Avoid discharge into drains, water courses or onto the ground.

## Methods and Materials for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose as per Section 13.

Section 7. H	andling and Storage
--------------	---------------------

#### Handling and Storage:

- Observe good industrial hygiene practices.
- Store away from incompatible materials listed in Section 10.
- Keep in original container.
- Keep container tightly closed.

```
Section 8
```

Exposure Controls / Personal Protection

## WORKPLACE EXPOSURE STANDARDS (provided for guidance only)

	TWA		STEL	
Substance	ppm	mg/m³	ppm	mg/m³

No ingredients have exposure limits

Workplace Exposure Standard – Time Weighted Average (WES-TWA). The time-weighted average exposure standard designed to protect the worker from the effects of long-term exposure. Workplace Exposure Standard – Short-Term Exposure Limit (WESSTEL). The 15-minute average exposure standard. Applies to any 15- Minute period in the working

day and is designed to protect the worker against adverse effects of irritation, chronic or irreversible tissue change, or narcosis that may increase the likelihood of accidents. The WES-STEL is not an alternative to the WES-TWA; both the short-term and time-weighted average exposures apply. Workplace Exposure Standards and Biological Exposure Indices APRIL 2022 13<sup>TH</sup> EDITION.

# **Engineering Controls**

Ensure adequate ventilation.

## **Personal Protection Equipment**

Eyes	Goggles recommended during refilling.
Hands and Skin	Wear appropriate chemical resistant gloves.
Respiratory	Not required.
General	Wash hands before breaks and at the end of work.

## Section 9 Physical and Chemical Properties

Appearance	Pasty
Colour	White
Odour	Characteristic
Odour Threshold	Not available
рН	Not available
Boiling Point	Not available
Melting Point	Not available
Freezing Point	Not available
Flash Point	Not available
Flammability	Not flammable
Upper and Lower	Not available
Explosive Limits	
Vapour Pressure	Not available
Vapour Density	Not available
Density	1.4 – 1.5 g/cm <sup>3</sup> (20 <sup>0</sup> C)
Specific Gravity	Not available
Solubility	Not miscible or difficult to mix.
Partition Coefficient:	Not available
Auto Ignition Temp	Product is not self-igniting.
Oxidising	Not available
Viscocity	Not available
Kinematic Viscosity	Not available
Solvent content:	Not available
Organic solvents:	<0.0%
VOC (EC):	<0.01%

## Section 10. Stability and Reactivity

Stability of Substance	Stable under normal conditions.	
Possibility of hazardous	No dangerous reaction known under conditions of normal use.	
reactions		
Conditions to Avoid	None known.	
Incompatible Materials	None known.	
Hazardous Decomposition	No decomposition if used according to specifications.	
Products	no decomposition il docu decording to specificationsi	

#### Section 11

## **Toxicological Information**

## **Acute Effects:**

Swallowed	Not applicable.
Dermal	Not applicable.
Inhalation	Not applicable.
Eye	Not applicable.
Skin	Not applicable.

## **Chronic Effects:**

Carcinogenicity	Not applicable.	
Reproductive	Not applicable.	
Toxicity		
Germ Cell	Not applicable.	
Mutagenicity		
Aspiration	Not applicable.	
STOT/SE	Not applicable.	
STOT/RE	Not applicable.	

· Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values relevant for classification:			
1760-24-3 N-(3-(trimethoxysilyl)propyl)ethylenediamine			
Dermal	LD50	2,000 mg/kg (rabbit)	
Inhalative	LC50/4 h	1.49 mg/l (rat)	
	EC50/48 h	87.4 mg/l (daphnia)	

## Section 12. Ecotoxicological Information

This product is not hazardous to the environment.

Product:	
Persistence and degradability	No data available
Bioaccumulation	No data available
Mobility in Soil	No data available
Other adverse effects	Water hazard class 1 (German Regulation) (Self- assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

## Section 13. Disposal Considerations

## **Disposal Method:**

Rinse container and dispose as per Local Regulations.

**Precautions or methods to avoid:** Must not be disposed together with household garbage. Do not allow product to reach sewage system.

# Section 14 Transport Information

This product is NOT classified as a Dangerous Good for transport in Australia; ADG 7 This product is NOT classified as a Dangerous Good for transport in NZ; NZS 5433:2012

# Section 15 Regulatory Information

## Australia:

Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia

## Poison Schedule No: Not Scheduled

## New Zealand:

Not Classified as hazardous according to Regulation (EC) No. 1272/2008 which meets New Zealand jurisdiction criteria as per EPA Hazardous Substances (Classification) Notice 2020.

Glossary

- Cat Category
- EC50 Median effective concentration.
- EEL Environmental Exposure Limit.
- EPA Environmental Protection Authority
- HSNO Hazardous Substances and New Organisms.
- HSW Health and Safety at Work.
- LC50 Lethal concentration that will kill 50% of the test organisms inhaling or ingesting it.
- LD50 Lethal dose to kill 50% of test animals/organisms.
- LEL Lower explosive level.
- OSHA American Occupational Safety and Health Administration.
- TEL Tolerable Exposure Limit.
- TLV Threshold Limit Value-an exposure limit set by responsible authority.
- UEL Upper Explosive Level
- WES Workplace Exposure Limit

## Disclaimer

This document has been prepared by TCC (NZ) Ltd and serves as the suppliers Safety Data Sheet ('SDS'). It is based on information concerning the product which has been provided to TCC (NZ) Ltd or obtained from third party sources and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for the product at the time of issue. Further clarification regarding any aspect of the product should be obtained directly from the manufacturer. While TCC (NZ) have taken all due care to include accurate and up-to-date information in this SDS, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, TCC (NZ) Ltd accept no liability for any loss, injury or damage

(including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this SDS The information herein is given in good faith, but no warranty, express or implied is made. Please contact the supplier, if further information is required.
